VAST Series

The relationship between the panel and the post is what VAST can be so special. It's developed to meet all the needs and solutions to office planning. Stability structures, compact panels, variety of panels and accessories, creative installation, convenient raceway is its beauty. The purpose of the modular furniture system is not only for your physical needs but for mental comfort.

Complete hanging system combined with book cabinets.

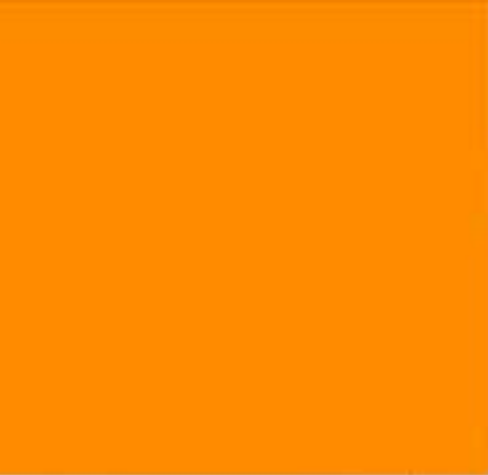

Diverse functions and panel combinations: Glaze Panel, Hanging Profile, Raceway Panel, Embossed Panel, Menamine Face Clipboard Panel, Fabric Panel, etc...

VAST Energy

This concept using the combination of the flexible posts and panels, can be designed and rebuild into different functional workstations, counters.

Artistically structured design, associate with the SGS certification.

Safe and versatile with concealed cable raceway functions.

Easy to separate and assemble.

Counter board made of solid marble combined with Glaze Panel, Wood Panel, and Aluminum Alloy Panel that creates the perfect Counter Workstation.

Scope Series

AXIS System combined with Mint System is SYNERGY. We created a combination of AXIS & MINT System to a series of new Integrated System Furniture – Scope System.

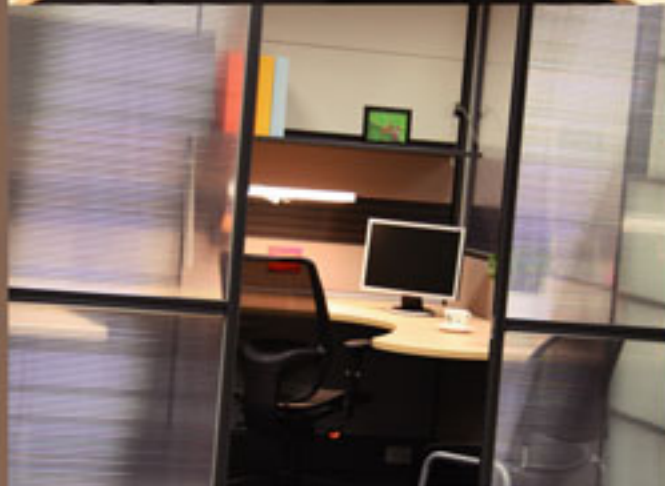

*Let Us
Brighten up
Your Business.*

Scope can be made into a height of 2100mm managerial working area, arranged with door panels giving more privacy to personal space.

Combination between Perfect hanging system and other accessories lets the environment more efficient.

Complete cable raceway which makes Scope more Unique.

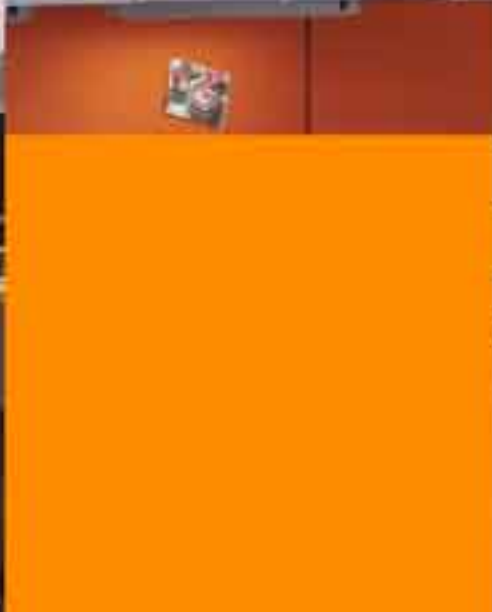

SCOPE Series

The highly adjustable square Partition Panel combined with MINT system's 8mm core flute, is the fantasy of space.

AXIS System combined with Mint System takes space into a distinct level of design.

Scope can be combined with MX System (Freestanding) allows you to use the cabinet system in flexibility.

SCOPE Energy

With infinite desires, we created infinite possibilities. Let Scope fulfill your desires of reaching success.

Ecore Series

This new mesh panel design, gives the space a richer visualization of gradients. With the introduction of air and light, Ecore brightens the environment and plays the role of a magician in the office space.

ECORE Energy

Ecure enables the partition, desk mounted screen and desk legs to integrate its together.

Mesh with a modern touch of lines which allows the space to relief entirely.

Strong Structural combinations, makes the desk mounted screen no longer just the furniture accessories.

MINT Series

MINT is not only born for other systems. With table-attachment screens, easy extending counter, freestanding surfaces, and linking up its own high panel screens, there comes a complete office space. MINT is developed for simplification in many ways including materials and combinations. But the further we've done is making more extensions, options and connective ability to other systems. That's MINT which is ready to change the spaces.
